-At the Theater to-night Mrs. Bowers miles north of Covington, Tipton county, some days since killed a hog weighing two hundred and forty-two pounds. The hog did not resemble the hog of the period so far as feet are concerned. In zoology the hog is described as a domesticated animal of the genus "sus," of gluttonous and filthy habits, kept for fat and meat, called respectively lard and pork, which it furnishes. From the above it will be seen that the hog is not of very aristocratic or respectable origin. The hog referred to above, however, possessed the peculiarity of having too pair of cloven hoofs on each foot, a remarkable phenomenon in hogology. The double hoofs were presented to the Appeal office by Mr. David Tittle for exhibition. A Darwinian scientist should become the possessor of these hog hoofs, and from them ha might be able to further trace

I transmit a statement from the comptroller, exhibiting the levy necessary to meet the obligations of the State if the proposition of the creditors is accepted. This statement does not include seventy thousand five hundred dollars from the lease of the penitentiary, nor the loss of fifty-six thou-

sand dollars from the present valuation of railroads, together with the revenue to be derived from the tax on the telegraph lines and sleeping-cars. If the compromise is made, it will be the duty of the general assembly to provide revenue necessary to carry it out. It will also be necessary to provide by appropriate legisla-tion for the expenses of the first and of the present extra session. 'I appeal to the general assembly to rescuthe State from its peril, and to preserve something of its credit. The people of Ten-nessee are not prepared to learn the full les-son of repudiation. They are still sensible f the responsibility resting upon them to naintain the good name impressed upon the

State by so many of her sons. The time has been when the prestige of Tennessee, the high standard of her commercial credit, made all of her sons proud of their nativity. Do not let us turn our backs upon this honorable his ory." With the message was submitted the cor-respondence of the large holders of Tennesbonds authorizing the proposition of a compromise at fifty cents on the dollar, at six per cent, interest. Among the signers is R. . Wilson. Also the following statement from the comptroller:

"In reply to your inquiry in regard to the estimate as to what tax it may be necessary to levy on the assessed taxable property of the State in order to pay six per cent. interest on the State debt, adjusted at fifty cents, I convey herewith "In reply to your inquiry in regard to the interest on the State debt, adjusted at fifty cents, I convey berewith provided for at the regular session of this leg-islature. From this statement it will be seen that an additional levy of three mills, or thirty cents on one hundred dollars, will be sufficient to provide for the interest on the State debt, provided the debt be adjusted at Silverware, Diamonds, fifty cents.

committee to investigate the legality of the State debt was concurred in. House .- The day was taken up by a speech from Mr. Colyar, of Davidson, partly based on an editorial in the APPEAL on the governor's proclamation. He strongly opposed the fifty cents proposition, and favored leaving everything in a state of suspension

Schenck's Mandrake Pills Will be found to possess those qualities nec essary to the total eradication of all bilious attacks, prompt to start the secretions of the liver, and give a healthy tone to the entire system. Indeed, it is no ordinary discovery in medical science to have invented a remedy Providence, R. I., December 12.—The creditors of A. & W. Sprague, representing four hundred and twenty thousand dollars of indebtedness, met to-day to take order. That the properties of certain vegetables comprise all the virtues of calomel without its injurious tendencies, is now an admitted fact, rendered indisputable by scientific re-searches; and those who use the Mandrake pills will be fully satisfied that the best medicines are those provided by nature in the common herbs and roots of the fields. These pills open the bowels, and correct all bilious derangements without salivation or any of the injurious effects of calomel or other por these pills, as will be seen by the altered of or of the stools, and disappearing of the sal-low complexion and cleansing of the tongue. Ample directions for use accompany each box of pills. Prepared only by J. H. Schenck & Son, at their principal office, corner Sixth and Arch streets, Philadelphia, and for sale by all druggists and dealers. Price twenty-

Vienna Rolls. To one quart of flour add two teaspoons of Docley's yeast powder, sift thoroughly put in a little salt, and rub a tablespoonful of sweet milk for a soft dough, roll out and cut with a round cutter; fold over like a turnover, wetting the edges with milk to make them adhere; wash over with milk to give them a gloss, place in a pan so they will not touch each other, and bake fifteen or twenty minutes. They are delicious.

SEWING-MACHINE. FRUIT AND PACKING BOXES!

Corner Gayoso and Second Sts.

It is the most powerful and durable, the lightesttunning, and most silent sewing-Machine made.
POWER.—The application of force directly over
the needle insures ample power and enables it to go
through the heaviest work with ease.

DURABILITY.—All the working parts are thoroughly hadened, and so adjusted that lost motion
can be readily taken up.

EASE OF ACTION.—The simplicity of its machinery, the few bearings and points of friction, and
the absence of all cams and gear-wheels, give it a
light, easy action that requires but little motive
power. power.

It has an Afformatic Tension, which being self-regulating, does away with what in other machines is a fruitful source of annoyance and trouble.

There being no cogs to rattle, and no cams to rub and grind, it does its work without noise.

Its action is so light and easy that it can be run by a fine cotton thread in place of the ordinary leather band. Cotton Factors and Commission Merchants No. 258 Front street, Memphis, Tenn.

Specially recommended by the medical faculty on accurat of its light-running qualities.

"Why! how easy it runs!" is the invariable expression of those who operate it for the first time.

It is made and finished one hundred per cent, better than any other Sewing-Machine in the market. Its working parts are finished equal to the works of a fine watch. Eschanics and those who are familiar with machinery, are invited to call and examine it. The ladies are invited to call and see the Domestic Cinderbraider Sewing. Machine. To braid with the Domestic Underbraider is as simple us to do plain stitching. COTTON FACTORS, le as to de plain stitching.
